

"AF03": 3590 VERSION FOR VEHICLE WEIGHING SYSTEMS

Particularly suitable for vehicle weighing and weigh bridge management, with input/output control of goods. The AF03 version allows to weigh the vehicle by itself or with the trailer, either with the operator as well as self-service with the badge reader, as well as the advanced management of the data and the printouts. The AF03 also offers the possibility of managing the main digital load cells available on the market. CE-M approvable (OIML R-76 / EN 45501).

FUNCTIONS

- Clearing, Automatic Tare, Presetable Tare, locked, unlocked tare.
- Management of the main **digital load cells** available on the market.
- Storage of input/output weighs through **ID CODE** or **LICENSE PLATE** (up to 999 suspended weighs).
- **Management of second scale**: possibility of carrying out the input/output weigh with scale 1 or with scale 2; input weigh with scale 1, output weigh with scale 2 and viceversa. **Function "A+B"** for displaying sum of scale 1 + scale 2.
- **Management of vehicles with trailer** also on 2 scales (tractor weigh on scale 1 + trailer weigh on scale 2)
- **Master/Slave functioning** (with 3590M3 basic version), for managing the weighing system **from two indicators**.
- **15 configurable and printable ID texts** containing 32 characters, i.e.: Code, lot ID, operator ID, shift number, etc.
- **Database of 500 customers/suppliers** with two alphanumeric descriptions of 20 characters each, linked tare, input total, output total, net total, weighs total.
- **Database of 500 articles** with alphanumeric description of 20 characters each, input total, output total, net total, weighs total.
- **Database of 500 vehicles** with alphanumeric description of 20 characters, plate (10 crt), linked tare, input total, output total, net total, weighs total.
- **Complete customisation of the function keys**, for adapting the instrument to the needs of the user.
- **6 levels of resettable totals** which may printed in an independent way: partial total, general total, grand total, customer total, article total, vehicle total.
- **Printing of complete database reports** or just the handled articles.
- **Programmable printing** from keyboard or from PC (through the free Dinitools.net software) of 30 print formats linkable to various functions (Print key, Input weigh, Output weigh, Single weigh, Partial total, General total, Grand total, Customer total, Article total, etc.); each print format can contain 2048 positions which may be direct ASCII codes or preset print blocks (i.e. Company name, weigh and lot progressive, net weight, memory storage number, customer description, article description, date and time, etc.).
