

TPWN "NETWORK" SERIES PALLET TRUCK SCALE

TPWN

Easy to use and handy pallet trucks with integrated electronic weighing, are necessary when one wants to weigh accurately saving time. The large display makes it easy to read in all working conditions. It is fitted with an easily replaceable built-in battery with extractable drawer.

Available also in TRIPLE RANGE model.

MAIN FEATURES

- Maximum lifting capacity: 2000 kg.
- Accuracy: +/- 0.1% of the capacity.
- Fork dimensions 1170 x 550 x 85 mm.
- Weighs about 120 kg.
- Structure in extra thick steel and oven-fire painted mechanics.
- Steering wheels and double loading rollers with a poliurethane coating.
- 4 shear-beam load cells.
- Weight indicator with large LCD 25mm display high contrast digits, which are clearly visible even in poor lighting conditions, and waterproof membrane keyboard, with 4 functional keys.
- Configuration, calibration and diagnostics from PC with LCSTOOL utility.
- Fitted with extractable drawer containing 4 AA batteries.
- The operating time is of about 80 hours of continuous use or three months with the typical non continuous use, thanks to its auto switch-off function.
- Programmable auto power saving function.
- Battery level indication.
- Triple graduation (TPWN3 model) for more precision about the smaller weights, maintaining a great capacity of loading.
